

Dear Sirs:

It has come to my attention that it is likely that new LPFM stations will be expanded and possibly be given priority over existing FM translator services. K-LOVE is one such FM translator station. The service provided by this station cannot be measured just by numbers of listeners or by any financial means. The true worth of a station is measured by the positive impact that it's programming has upon the listeners. The positive values of K-LOVE's programming need to be expanded, not limited.
